

General Assembly

Distr.: General
17 January 2002

Original: English

Fifty-sixth session

Agenda item 37

The role of diamonds in fuelling conflict

**Letter dated 10 January 2002 from the Chargé d'affaires a.i. of the
Permanent Mission of South Africa to the United Nations
addressed to the Secretary-General**

I have the honour to transmit herewith, in accordance with the requirements of paragraph 6 of General Assembly resolution 55/56 of 1 December 2000, the progress report on the Kimberley Process for your consideration. I should be grateful if you would circulate this letter and its annexes as a document of the General Assembly under agenda item 37.

(Signed) Graham Maitland
Chargé d'affaires a.i.

**Annexes to the letter dated 10 January 2002 from the Chargé
d'affaires a.i. of the Permanent Mission of South Africa to the
United Nations addressed to the Secretary-General**

Annex I

Report on the Kimberley Process submitted to the General Assembly pursuant to Assembly resolution 55/56 of 1 December 2000

Introduction

Operative paragraph 6 of the United Nations General Assembly (UNGA) Resolution 55/56, adopted on 1 December 2000 requests the countries participating in the Kimberley Process to present to the UNGA, no later than its 56th Session, a report on progress made with regard to developing detailed proposals for a simple and workable international certification scheme for rough diamonds. Resolution 55/56 also records the decision by the General Assembly to include in the provisional agenda of its 56th session the item entitled "The role of diamonds in fuelling conflict".

Objectives of the Kimberley Process

The Kimberley Process was established through initiatives by Southern African diamond producing countries in order to:

- (a) Stem the flow of rough diamonds used by rebels to finance armed conflict aimed at overthrowing legitimate governments, thereby making a substantial contribution to international peace and security;
- (b) Protect the legitimate diamond industry, upon which many countries are dependent for their economic and social development;
- (c) Achieve the above through the creation and implementation of an international certification scheme for rough diamonds, based primarily on national certification schemes and on internationally agreed minimum standards.

Participation in the Kimberley Process

Participation included the European Community and States involved in the production, exporting and importing of rough diamonds, the number of which grew considerably following the adoption of UNGA Resolution 55/56. Furthermore, all member states of the United Nations were notified of meetings to be held and invited to indicate their interest in attending.

Representatives from the diamond industry, notably the World Diamond Council, and civil society are also active participants in the Kimberley Process.

Representatives from United Nations Sanctions Committees for Angola, Sierra Leone and Liberia, the Monitoring Mechanism on the situation in Angola as well as the Expert Panel on the Illegal Exploitation of Natural Resources and other forms of Wealth in the Democratic Republic of the Congo, also attended the meetings.

Meetings held

The Kimberley Process, chaired by South Africa, held the following meetings since the adoption of Resolution 55/56, with the view to developing detailed proposals for an international certifications scheme for rough diamonds:

Windhoek, Namibia, 13 to 16 February 2001;

Brussels, Belgium, 25 to 27 April 2001;

Moscow, Russian Federation, 3 to 5 July 2001;

Twickenham, United Kingdom, 11 to 13 September 2001;

Luanda, Angola, 30 October to 1 November 2001;

Gaborone, Botswana, 26 to 29 November 2001.

These meetings summarised their proceedings in communiqués.*

Progress achieved

At the above-mentioned meetings, detailed proposals for an international certification scheme for rough diamonds were developed, as set out in the Kimberley Process Working Document 9/2001 entitled "Essential Elements of an International Scheme of Certification for Rough Diamonds with a view, to breaking the link between armed conflict and the trade in rough diamonds". The document is attached as Annex VII. At the meeting in Gaborone, Ministers and the representatives of the world's leading rough diamond producing, exporting, and importing states, the European Community, the Southern Africa Development Community, and other states concerned by the devastating effects of trade in conflict diamonds declared that:

1. The detailed proposals for an international certification scheme for rough diamonds developed by the participants in the Kimberley Process and presented in the form of Kimberley Process Working Document 9/2001 "Essential Elements of an International Scheme of Certification for Rough Diamonds, with a view to breaking the link between armed conflict and the trade in rough diamonds", dated 28 November 2001, provide a good basis for the envisaged certification scheme;
2. The certification scheme should be established through an international understanding as soon as possible, recognising the urgency of the situation from a humanitarian and security standpoint. Those in a position to issue the Kimberley Process Certificate should do so immediately. All others are encouraged to do so by 1 June 2002. It is the intention of participants to start the full implementation simultaneously by the end of 2002.

* See A/56/502, annex, appendices A-D and A/56/675, annexes VI and VII.

3. The mandate for the Kimberley Process should be extended until the beginning of the simultaneous implementation, in order to undertake the finalisation of the international understanding;
4. The widest possible participation in the certification scheme is essential and should be encouraged and facilitated.

The Ministers also recognised the need to ensure that the measures taken to implement the international certification scheme for rough diamonds must be consistent with international law governing international trade.

Conclusion

The Ministers recommended that the United Nations take action to support the implementation of the international certification scheme for rough diamonds as an instrument that would help to promote legitimate trade and ensure the effective implementation of the relevant Resolutions of the United Nations Security Council containing sanctions on the trade in conflict diamonds, that are contributing to the promotion of international peace and security, and the relevant United Nations General Assembly resolutions as referred to in the scheme.

Annex VIII

**Kimberley Process working document nr 9/2001 (as amended),
dated 29 November 2001**

**ESSENTIAL ELEMENTS OF AN INTERNATIONAL SCHEME OF
CERTIFICATION FOR ROUGH DIAMONDS, WITH A VIEW TO BREAKING
THE LINK BETWEEN ARMED CONFLICT AND THE TRADE IN ROUGH
DIAMONDS**

PREAMBLE

PARTICIPANTS,

RECOGNISING that the trade in conflict diamonds is a matter of serious international concern, which can be directly linked to the fuelling of armed conflict, the activities of rebel movements aimed at undermining or overthrowing legitimate governments, and the illicit traffic in, and proliferation of, armaments, especially small arms and light weapons;

FURTHER RECOGNISING the devastating impact of conflicts fuelled by the trade in conflict diamonds on the peace, safety and security of people in affected countries and the systematic and gross human rights violations that have been perpetrated in such conflicts;

NOTING the negative impact of such conflicts on regional stability and the obligations placed upon states by the United Nations Charter regarding the maintenance of international peace and security;

BEARING IN MIND that urgent international action is imperative to prevent the problem of conflict diamonds from negatively affecting the trade in legitimate diamonds, which makes a critical contribution to the economies of many of the producing, processing, exporting and importing states, especially developing states;

RECALLING all of the relevant resolutions of the United Nations Security Council under Chapter VII of the United Nations Charter, including the relevant provisions of Resolutions 1173 (1998), 1295 (2000), 1306 (2000), and 1343 (2001), and determined to contribute to and support the implementation of the measures provided for in these resolutions;

HIGHLIGHTING the United Nations General Assembly Resolution 55/56 (2000) on the role of the trade in conflict diamonds in fuelling armed conflict, which called on the international community to give urgent and careful consideration to devising effective and pragmatic measures to address this problem;

FURTHER HIGHLIGHTING the recommendation in United Nations General Assembly Resolution 55/56 that the international community develop detailed proposals for a simple and workable international certification scheme for rough diamonds based primarily on national certification schemes and on internationally agreed minimum standards;

RECALLING that the Kimberley Process, which was established to find a solution to the international problem of conflict diamonds, was inclusive of concerned stake holders, namely producing, exporting and importing states, the diamond industry and civil society;

CONVINCED that the opportunity for conflict diamonds to play a role in fuelling armed conflict can be seriously reduced by introducing a certification scheme for rough diamonds designed to exclude conflict diamonds from the legitimate trade;

RECALLING that the Kimberley Process considered that an international certification scheme for rough diamonds, based on national laws and practices and meeting internationally agreed minimum standards, will be the most effective system by which the problem of conflict diamonds could be addressed;

ACKNOWLEDGING the important initiatives already taken to address this problem, in particular by the governments of Angola, the Democratic Republic of Congo, Guinea and Sierra Leone and by other key producing, exporting and importing countries, as well as by the diamond industry, in particular by the World Diamond Council, and by civil society;

WELCOMING voluntary self-regulation initiatives announced by the diamond industry and recognising that a system of such voluntary self-regulation contributes to ensuring an effective internal control system of rough diamonds based upon the international certification scheme for rough diamonds;

RECOGNISING that an international certification scheme for rough diamonds will only be credible if all Participants have established internal systems of control designed to eliminate the presence of conflict diamonds in the chain of producing, exporting and importing rough diamonds within their own territories, while taking into account that differences in production methods and trading practices as well as differences in institutional controls thereof may require different approaches to meet minimum standards;

FURTHER RECOGNISING that the international certification scheme for rough diamonds must be consistent with international law governing international trade;

ACKNOWLEDGING that state sovereignty should be fully respected and the principles of equality, mutual benefits and consensus should be adhered to;

RECOMMEND THE FOLLOWING PROVISIONS:

SECTION I

Definitions

For the purposes of the international certification scheme for rough diamonds (hereinafter referred to as “the certification scheme”), the following definitions apply:

CONFLICT DIAMONDS means rough diamonds used by rebel movements or their allies to finance conflict aimed at undermining legitimate governments, as described in relevant United Nations Security Council (UNSC) resolutions insofar as they remain in effect, or in other similar UNSC resolutions which may be adopted in the future, and as understood and recognised in United Nations General Assembly (UNGA) Resolution 55/56, or in other similar UNGA resolutions which may be adopted in future;

COUNTRY OF ORIGIN means the country where a shipment of rough diamonds has been mined or extracted;

COUNTRY OF PROVENANCE means the last Participant from where a shipment of rough diamonds was exported, as recorded on import documentation;

DIAMOND means a natural mineral consisting essentially of pure crystallised carbon in the isometric system, with a hardness on the Mohs (scratch) scale of 10, a specific gravity of approximately 3.52 and a refractive index of 2.42;

EXPORT means the physical leaving/taking out of any part of the geographical territory of a Participant;

EXPORTING AUTHORITY means the authority(ies) or body(ies) designated by a Participant from whose territory a shipment of rough diamonds is leaving, and which are authorised to validate the Kimberley Process Certificate;

FREE TRADE ZONE means a part of the territory of a Participant where any goods introduced are generally regarded, insofar as import duties and taxes are concerned, as being outside the customs territory;

IMPORT means the physical entering/bringing into any part of the geographical territory of a Participant;

IMPORTING AUTHORITY means the authority(ies) or body(ies) designated by a Participant into whose territory a shipment of rough diamonds is imported to conduct all import formalities and particularly the verification of accompanying Certificates;

KIMBERLEY PROCESS CERTIFICATE means a forgery resistant document with a particular format which identifies a shipment of rough diamonds as being in compliance with the requirements of the certification scheme;

OBSERVER means a representative of civil society, the diamond industry, international organisations and non-participating governments invited to take part in Plenary meetings; (* *Further consultations to be undertaken by the Chair.*)

PARCEL means one or more diamonds that are packed together and that are not individualised;

PARCEL OF MIXED ORIGIN means a parcel that contains rough diamonds from two or more countries of origin, mixed together;

PARTICIPANT means a state or a regional economic integration organisation for whom the certification scheme is effective; (* *Further consultations to be undertaken by the Chair.*)

REGIONAL ECONOMIC INTEGRATION ORGANISATION means an organisation comprised of sovereign states that have transferred competence to that organisation in respect of matters governed by the certification scheme;

ROUGH DIAMONDS means diamonds which are unworked or simply sawn, cleaved or bruted and fall under the Relevant Harmonised Commodity Description and Coding System 7102.10, 7102.21 and 7102.31;

SHIPMENT means one or more parcels that are physically imported or exported;

TRANSIT means the physical passage across the territory of a Participant or a non-Participant, with or without transshipment, warehousing or change in mode of transport, when such passage is only a portion of a complete journey beginning and terminating beyond the frontier of the Participant or non-Participant across whose territory a shipment passes;

* *Kimberley Process to report on the progress made at the 57th Session of the United Nations General Assembly.*

SECTION II

The Kimberley Process Certificate

Each Participant should ensure that:

- (a) a Kimberley Process Certificate (hereafter referred to as the Certificate) accompanies each shipment of rough diamonds on export;
- (b) its processes for issuing Certificates meet the minimum standards of the Kimberley Process as set out in Section IV;
- (c) Certificates meet the minimum requirements set out in appendix I. As long as these requirements are met, Participants may at their discretion establish additional characteristics for their own Certificates, for example their form, additional data or security elements;
- (d) it notifies all other Participants through the Chair of the features of its Certificate as specified in Annex I, for purposes of validation.

SECTION III

Undertakings in respect of the international trade in rough diamonds

Each Participant should:

- (a) with regard to shipments of rough diamonds exported to a Participant, require that each such shipment is accompanied by a duly validated Certificate;
- (b) with regard to shipments of rough diamonds imported from a Participant:
 - require a duly validated Certificate;
 - ensure that confirmation of receipt is sent expeditiously to the relevant Exporting Authority. The confirmation should as a minimum refer to the Certificate number, the number of parcels, the carat weight and the details of the importer and exporter;
 - require that the original of the Certificate be readily accessible for a period of no less than three years;
- (c) ensure that no shipment of rough diamonds is imported from or exported to a non-Participant;
- (d) recognise that Participants through whose territory shipments transit are not required to meet the requirement of paragraphs (a) and (b) above, and of Section II (a) provided that the designated authorities of the Participant through whose territory a shipment passes, ensure that the shipment leaves its territory in an identical state as it entered its territory (i.e. unopened and not tampered with).

SECTION IV

Internal Controls

Undertakings by Participants

Each Participant should:

- (a) establish a system of internal controls designed to eliminate the presence of conflict diamonds from shipments of rough diamonds imported into and exported from its territory;
- (b) designate an Importing and an Exporting Authority(ies);
- (c) ensure that rough diamonds are imported and exported in tamper resistant containers;
- (d) as required, amend or enact appropriate laws or regulations to implement and enforce the Certification Scheme and to maintain dissuasive and proportional penalties for transgressions;
- (e) collect and maintain relevant official production, import and export data, and collate and exchange such data in accordance with the provisions of Section V;
- (f) when establishing a system of internal controls, take into account, where appropriate, the further options and recommendations for internal controls as elaborated in appendix II.

Principles of Industry Self-Regulation

Participants understand that a voluntary system of industry self-regulation, as referred to in the Preamble of this Document, will provide for a system of warranties underpinned through verification by independent auditors of individual companies and supported by internal penalties set by industry, which will help to facilitate the full traceability of rough diamond transactions by government authorities.

Section V

Co-operation and Transparency

Participants should:

- (a) provide to each other through the Chair information identifying their designated authorities or bodies responsible for implementing the provisions of this Certification Scheme. Each Participant should provide to other Participants through the Chair information, preferably in electronic format, on its relevant laws, regulations, rules, procedures and practices, and update that information as required. This should include a synopsis in English of the essential content of this information;
- (b) compile and make available to all other Participants through the Chair statistical data in line with the principles set out in appendix III;
- (c) exchange on a regular basis experiences and other relevant information, including on self-assessment, in order to arrive at the best practice in given circumstances;
- (d) consider favourably requests from other Participants for assistance to improve the functioning of the certification scheme within their territories;
- (e) inform another Participant through the Chair if it considers that the laws, regulations, rules, procedures or practices of that other Participant do not ensure the absence of conflict diamonds in the exports of that other Participant;
- (f) cooperate with other Participants to attempt to resolve problems which may arise from unintentional circumstances and which could lead to non-fulfilment of the minimum requirements for the issuance or acceptance of the Certificates, and inform all other Participants of the essence of the problems encountered and of solutions found;
- (g) encourage, through their relevant authorities, closer co-operation between law enforcement agencies and between customs agencies of Participants.

Section VI

Administrative Matters

MEETINGS

1. Participants and Observers are to meet in Plenary annually, and on other occasions as Participants may deem necessary, in order to discuss the effectiveness of the certification scheme.
2. Participants should adopt Rules of Procedure for such meetings at the first Plenary meeting.
3. Meetings are to be held in the country where the Chair is located, unless a Participant or an international organisation offers to host a meeting and this offer has been accepted. The host country should facilitate entry formalities for those attending such meetings.
4. At the end of each Plenary meeting, a Chair would be elected to preside over all Plenary meetings, and any *ad hoc* working groups which might be formed, until the conclusion of the next annual Plenary meeting.
5. Participants are to reach decisions by consensus. In the event that consensus proves to be impossible, the Chair is to conduct consultations.

ADMINISTRATIVE SUPPORT

6. For the effective administration of the certification scheme, administrative support will be necessary. The modalities and functions of that support should be discussed at the first Plenary meeting, following endorsement by the UN General Assembly.
7. Administrative support could include the following functions:
 - (a) to serve as a channel of communication, information sharing and consultation between the Participants with regard to matters provided for in this Document;
 - (b) to maintain and make available for the use of all Participants a collection of those laws, regulations, rules, procedures, practices and statistics notified pursuant to Section V;
 - (c) to prepare documents and provide administrative support for Plenary and working group meetings;
 - (d) to undertake such additional responsibilities as the Plenary meetings, or any working group delegated by Plenary meetings, may instruct.

PARTICIPATION

8. Participation in the certification scheme is open on a global, non-discriminatory basis to all Applicants willing and able to fulfill the requirements of that scheme.
9. Applicants wanting to participate in the certification scheme should signify this interest by notifying the Chair through diplomatic channels. This notification should include the information set forth in Section V, paragraph (a) and be circulated to all Participants within one month.
10. Participants intend to invite representatives of civil society, the diamond industry, non-participating governments and international organizations to participate in Plenary meetings as Observers.

PARTICIPANT MEASURES

11. Participants are to prepare, and make available to other Participants, in advance of annual Plenary meetings of the Kimberley Process, information as stipulated in paragraph (a) of Section V outlining how the requirements of the international certification scheme are being implemented within their respective jurisdictions.
12. The agenda of annual Plenary meetings is to include an item where information as stipulated in paragraph (a) of Section V is reviewed and Participants can provide further details of their respective systems at the request of the Plenary.
13. Where further clarification is required, Participants at Plenary meetings, upon recommendation by the Chair, can identify and decide on additional verification measures to be undertaken. Such measures are to be implemented in accordance with international law. These could include, but need not be limited to measures such as:
 - a. requesting additional information and clarification from Participants;
 - b. review missions by other Participants or their representatives.

(Reservations by NGOs noted.)

14. Review missions are to be conducted with the consent of the Participant concerned and include no more than three representatives of other Participants.

(Reservation by NGOs noted.)

15. Membership and terms of reference of the above mentioned review missions are to be decided by the Participants.
16. A report on the results of compliance verification measures is to be forwarded to the Chair and to the Participant concerned within three weeks of completion of the mission. Any comments from that Participant as well as the report, are to be posted on the restricted access section of an official certification scheme website

no later than three weeks after the submission of the report to the Participant concerned. Participants and Observers should make every effort to observe strict confidentiality regarding the issue and the discussions relating to any compliance matter.

COMPLIANCE AND DISPUTE PREVENTION

17. In the event that an issue regarding compliance by a Participant or any other issue regarding the implementation of the certification scheme arises, any concerned Participant may so inform the Chair, who is to inform all Participants without delay about the said concern and enter into dialogue on how to address it. Participants and Observers should make every effort to observe strict confidentiality regarding the issue and the discussions relating to any compliance matter.

MODIFICATIONS

18. This document may be modified by consensus of the Participants.
19. Modifications may be proposed by any Participant. Such proposals should be sent in writing to the Chair, at least ninety days before the next Plenary meeting, unless otherwise agreed.
20. The Chair is to circulate any proposed modification expeditiously to all Participants and Observers and place it on the agenda of the next annual Plenary meeting.

REVIEW MECHANISM

21. Participants intend that the international certification scheme should be subject to periodic review, to allow Participants to conduct a thorough analysis of all elements contained in the scheme. The review should also include consideration of the continuing requirement for such a scheme, in view of the perception of the Participants, and of international organisations, in particular the United Nations, of the continued threat posed at that time by conflict diamonds. The first such review should take place no later than three years after the effective starting date of the certification scheme. The review meeting should normally coincide with the annual Plenary meeting, unless otherwise agreed.

THE START OF THE IMPLEMENTATION OF THE SCHEME

22. The certification scheme should be established through an international understanding as soon as possible, recognizing the urgency of the situation from a humanitarian and security standpoint. Those in a position to issue the Kimberley process Certificates should do so immediately. All others are encouraged to do so by 1 June 2002. It is the intention of Participants to start the full implementation simultaneously by the end of 2002. For Applicants that decide to join the scheme after this date, it becomes effective upon notification to the Chair pursuant to the provision in Section VI, Paragraph 9.

Appendix I

Certificates

A. Minimum requirements for Certificates

A Certificate is to meet the following minimum requirements:

- Each Certificate should bear the title “Kimberley Process Certificate”, the Kimberley Process logo and the following statement: “The rough diamonds in this shipment have been handled in accordance with the provisions of the Kimberley Process international certification scheme for rough diamonds”
- Country of origin for shipment of parcels of unmixed (i.e. from the same) origin
- Certificates may be issued in any language, provided that an English translation is incorporated
- Unique numbering with the Alpha 2 country code, according to ISO 3166-1
- Tamper and forgery resistant
- Date of issuance
- Date of expiry
- Issuing authority
- Identification of exporter and importer
- Carat weight/mass
- Value in US\$
- Number of parcels in shipment
- Relevant Harmonised Commodity Description and Coding System
- Validation of Certificate by the Exporting Authority

B. Optional Certificate Elements

A Certificate may include the following optional features:

- Characteristics of a Certificate (for example as to form, additional data or security elements)
- Quality characteristics of the rough diamonds in the shipment
- A recommended import confirmation part should have the following elements:

Country of destination
 Identification of importer
 Carat/weight and value in US\$
 Relevant Harmonised Commodity Description and Coding System
 Date of receipt by Importing Authority
 Authentication by Importing Authority

C. Optional Procedures

Rough diamonds may be shipped in transparent security bags.
 The unique Certificate number may be replicated on the container.

Appendix II

Recommendations as provided for in Section IV, paragraph (f)

General Recommendations

1. Participants may appoint an official coordinator(s) to deal with the implementation of the certification scheme.
2. Participants are encouraged to maintain the information and data required by Section V on a computerised database.
3. Participants are encouraged to transmit and receive electronic messages in order to support the certification scheme.
4. Participants that produce diamonds and that have rebel groups suspected of mining diamonds within their territories are encouraged to identify the areas of rebel diamond mining activity and provide this information to all other Participants. This information should be updated on a regular basis.
5. Participants are encouraged to make known the names of individuals or companies convicted of activities relevant to the purposes of the certification scheme to all other Participants through the Chair.
6. Participants are encouraged to ensure that all cash purchases of rough diamonds are routed through official banking channels, supported by verifiable documentation.
7. Participants that produce diamonds should analyse their diamond production under the following headings:
 - Characteristics of diamonds produced
 - Actual production

Recommendations for Control over Diamond Mines

8. Participants are encouraged to ensure that all diamond mines are licensed and to allow only those mines so licensed to mine diamonds.
9. Participants are encouraged to ensure that prospecting and mining companies maintain effective security standards to ensure that conflict diamonds do not contaminate legitimate production.

Recommendations for Participants with Small-scale Diamond Mining

10. All artisanal and informal diamond miners should be licensed and only those persons so licensed should be allowed to mine diamonds.

11. Licensing records should contain the following minimum information: name, address, nationality and/or residence status and the area of authorised diamond mining activity.

Recommendations for Rough Diamond Buyers, Sellers and Exporters

12. All diamond buyers, sellers, exporters, agents and courier companies involved in carrying rough diamonds should be registered and licensed by each Participant's relevant authorities.
13. Licensing records should contain the following minimum information: name, address and nationality and/or residence status.
14. All rough diamond buyers, sellers and exporters should be required by law to keep for a period of five years daily buying, selling or exporting records listing the names of buying or selling clients, their license number and the amount and value of diamonds sold, exported or purchased.
15. The information in paragraph 14 above should be entered into a computerised database, to facilitate the presentation of detailed information relating to the activities of individual rough diamond buyers and sellers.

Recommendations for Export Processes

16. A exporter should submit a rough diamond shipment to the relevant Exporting Authority.
17. The Exporting Authority is encouraged, prior to validating a Certificate, to require an exporter to provide a declaration that the rough diamonds being exported are not conflict diamonds.
18. Rough diamonds should be sealed in a tamper proof container together with the Certificate or a duly authenticated copy. The Exporting Authority should then transmit a detailed e-mail message to the relevant Importing Authority containing information on the carat weight, value, country of origin or provenance, importer and the serial number of the Certificate.
19. The Exporting Authority should record all details of rough diamond shipments on a computerised database.

Recommendations for Import Processes

20. The Importing Authority should receive an e-mail message either before or upon arrival of a rough diamond shipment. The message should contain details such as the carat weight, value, country of origin or provenance, exporter and the serial number of the Certificate.

21. The Importing Authority should inspect the shipment of rough diamonds to verify that the seals and the container have not been tampered with and that the export was performed in accordance with the certification scheme.
22. The Importing Authority should open and inspect the contents of the shipment to verify the details declared on the Certificate.
23. Where applicable and when requested, the Importing Authority should send the return slip or import confirmation coupon to the relevant Exporting Authority.
24. The Importing Authority should record all details of rough diamond shipments on a computerised database.

Recommendations on Shipments to and from Free Trade Zones

25. Shipments of rough diamonds to and from free trade zones should be processed by the designated authorities.

Appendix III

Statistics

Recognising that reliable and comparable data on the production and the international trade in rough diamonds are an essential tool for the effective implementation of the certification scheme, and particularly for identifying any irregularities or anomalies which could indicate that conflict diamonds are entering the legitimate trade, Participants strongly support the following principles:

- (a) to keep and publish promptly on a regular basis statistics on rough diamond production, exports and imports in a standardised format;
 - (b) to keep and publish statistics by origin and/or provenance;
 - (c) the recognition of the need for the collation and dissemination of the statistical data, which should be contained in the text of the UN General Assembly resolution following the report on progress made by the Kimberley Process on the proposed certification scheme;
 - (d) the content, frequency, timing, format and methods of handling and exchanging statistical data is to be developed by an ad hoc working group created for that purpose, and adopted at a Plenary meeting in accordance with the above-mentioned resolution of the UN General Assembly, without prejudice to the current level of statistical data gathering.
-
