III. RECOMMENDATIONS OF THE THIRD COMMITTEE

9. The Third Committee recommends to the General Assembly the adoption of the following draft resolution:

International action to combat drug abuse and illicit production and trafficking

The General Assembly,

Recalling its resolutions 49/168 of 23 December 1994 and 50/148 of 21 December 1995,

Gravely concerned that, despite increased efforts by States and relevant international organizations, there is a global expansion of illicit demand for, production of, and trafficking in narcotic drugs and psychotropic substances, including synthetic and designer drugs, which threatens the health, safety and well-being of millions of persons, in particular young people, in all countries, as well as the political and socio-economic systems and the stability, national security and sovereignty of an increasing number of States,

/...

Deeply alarmed by the growing violence and economic power of criminal organizations and terrorist groups engaged in drug trafficking activities and other criminal activities, such as money laundering and illicit traffic of arms and precursors and essential chemicals, and by the increasing transnational links between them, and recognizing that enhanced international cooperation and effective strategies are required to achieve results against all forms of transnational criminal activities,

Convinced of the desirability of closer coordination and cooperation among States in combating drug-related crimes, such as terrorism, illicit arms trade and money laundering, and bearing in mind the role that could be played by both the United Nations and regional organizations in this respect,

Fully aware that States, the relevant organizations of the United Nations system and multilateral development banks need to accord a higher priority to dealing with this scourge, which undermines development, economic and political stability and democratic institutions, and the combat against which entails increasing economic costs for Governments and the irreparable loss of human lives,

Reaffirming and stressing the need for increased efforts to implement the comprehensive framework for international cooperation in drug control provided by the existing drug control conventions, the Declaration¹ and the Comprehensive Multidisciplinary Outline of Future Activities in Drug Abuse Control,² the Political Declaration and Global Programme of Action³ adopted by the General Assembly at its seventeenth special session devoted to the question of international cooperation against illicit production, supply, demand, trafficking and distribution of narcotic and psychotropic substances, the Declaration adopted by the World Ministerial Summit to Reduce the Demand for Drugs and to Combat the Cocaine Threat,⁴ the United Nations System-wide Action Plan on Drug Abuse Control,⁵ the Naples Political Declaration and Global Action Plan against Organized Transnational Crime⁶ and other relevant international standards,

Recognizing the efforts of countries which produce narcotic drugs for scientific, medicinal and therapeutic uses to prevent the diversion of such

substances to illicit markets and to maintain production at a level consistent with licit demand in line with the Single Convention on Narcotic Drugs of 1961,⁷

Convinced that civil society, including non-governmental organizations, can make an effective contribution to address the illicit drug problem,

Acknowledging that there are links, under certain circumstances, between poverty and the increase in the illicit production of and trafficking in narcotic drugs and psychotropic substances and that the promotion of the economic development of countries affected by the illicit drug trade requires appropriate measures, including strengthened international cooperation in support of alternative and sustainable development activities in the affected areas of those countries, which have as their objectives the reduction and elimination of illicit drug production,

Stressing that respect for human rights is and must be an essential component of measures taken to address the drug problem,

Emphasizing the need for an analysis of transit routes used by drug traffickers, which are constantly changing and expanding to include a growing number of countries and regions in all parts of the world,

Underlining the role of the Commission on Narcotic Drugs as the principal United Nations policy-making body on drug control issues, the leadership role and commendable work of the United Nations International Drug Control Programme as the main focus for concerted international action, and the important role of the International Narcotics Control Board as an independent monitoring authority as set out in the international drug control treaties,

Recalling the important and central role of relevant United Nations bodies in evaluating the implementation by States parties of their obligations under the United Nations drug control treaties, as set out in those treaties,

Convinced that the holding of a special session of the General Assembly devoted to the strengthening of international cooperation against the illicit production, sale, demand, trafficking and distribution of narcotic drugs and psychotropic substances and related activities could make a significant contribution to the effectiveness of the United Nations and its Member States in the fight against this global problem,
