Fifty-seventh session
Agenda item 32
**Information and communication technologies
for development**

**Chile, China, Cuba, Guatemala, India, Lesotho, Nigeria, Pakistan, Republic of
Korea, Romania, Senegal, South Africa and Zambia: draft resolution**

Information and communication technologies for development

The General Assembly,

Recalling the United Nations Millennium Declaration,[1] adopted 8 September
by the Heads of State and Government at the Millennium Summit on 8 September
2000, by which Member States resolved to ensure that the benefits of new
technologies, especially information and communication technologies, in conformity
with recommendations contained in the Economic and Social Council Ministerial
Declaration adopted on 7 July 2000,[2] are available to all,

Recalling also that the Ministerial Declaration adopted by the Economic and
Social Council called for a coherent, system-wide information and communication
technologies strategy that would ensure coordination and synergy among
programmes and activities of individual organizations of the system and transform it
into a knowledge-based system of organizations,

Recalling further its resolution 57/__ of __ December 2002 on the World
Summit on the Information Society, by which it encouraged all relevant United
Nations bodies and other intergovernmental organizations, including international
and regional institutions, to further their cooperation in and support to the
preparatory process of the Summit,

Noting that information and communication technologies for development
have been recognized as an important element in the outcomes of recent United
Nations conferences and summits,

––––––––––––––––––

[1] See resolution 55/2.
[2] See *Official Records of the General Assembly, Fifty-seventh Session, Supplement No. 3*
(A/57/3/Rev.1), chap. 3, para. 17.

1.   *Affirms* the need to use information and communication technologies as a strategic tool to enhance the efficiency, effectiveness and impact of the development programmes and technical cooperation activities of the United Nations system;

2.   *Emphasizes* the need for coordination and synergy between programmes and activities of the United Nations system and the crucial role that information and communication technologies can play in facilitating such coordination;

3.   *Requests* the Secretary-General, as Chairman of the United Nations System Chief Executives Board for Coordination, to work closely with organizations of the United Nations system and with the United Nations Information and Communication Technologies Task Force to develop a comprehensive information and communication technologies strategy for the United Nations system, taking into account the following elements:

(a)   Encouraging the system-wide application and use of information and communication technologies to strengthen the United Nations capacity to create, share and disseminate knowledge and to help make the United Nations more efficient and effective in the delivery of services to Member States;

(b)   Mainstreaming and integrating information and communication technologies more fully into development and technical cooperation activities of the organizations of the system;

(c)   Building collaborative networks and communities of practice among organizations of the system;

(d)   Developing, where appropriate, common platforms for services such as databases, documentation and meetings;

(e)   Encouraging the use of information and communication technologies to promote the exchange of experiences and to enhance information-sharing among the organizations of the system and between the organizations and Member States;

(f)   Developing comprehensive system-wide training programmes aimed at building the capacities of the system to take full advantage of information and communication technologies;

4.   *Also requests* the Secretary-General to submit a progress report on the implementation of the present resolution to the General Assembly at its fifty-eighth session, under the agenda item "Information and communication technologies for development".
